

ITB-ANU-KIT *Joint Summer School 2018* on Geohazards

1 – 14 April 2018

Institut Teknologi Bandung - Indonesia

The Summer School

This 2-weeks program offers a comprehensive introduction to the subject of geohazards - especially earthquakes, tsunami and volcanic eruption - from the point view of geoscience. The program will involve several excursions to Tangkuban Parahu volcano, Lembang Fault, Kamojang Geothermal field, Kamojang craters and Guntur volcano observatory. Cultural and social activities are included in the program. This program is suitable for the undergraduate students who have had some exposure to geoscience.

Lecturers

Prof. Andreas Rietbrock (KIT)
Prof. Phil Cummins (ANU)
Prof. Djoko Santoso (ITB)
Prof. Sri Widiyantoro (ITB)
Prof. Nanang T. Puspito (ITB)
Dr. Ellen Gottschämmer (KIT)
Dr. Afnimar (ITB)
Dr. Mohammad Rachmat Sule (ITB)
Dr. Tedi Yusdistira
Dr. Andri D. Nugraha (ITB)
Dr. David P. Sahara (ITB)
Dr. Andri Hendriyana (ITB)
Dr. Farah Mulyasari (Universitas Pertamina)

There are no fees for participating in this summer school program. However, each participant needs to provide self-funding for hotel accommodation in Bandung, excursion tickets and meals (AUD 500 or EUR 325). For further information, please contact: Dr. M. Rachmat Sule (rachmat@gf.itb.ac.id)
