**Understanding  
the Self-Organised Cities  
in the Global South:**

*Planning and Design  
Adaptations during  
Covid-19 Pandemic*

Urban and Regional Planning Program  
School of Architecture, Planning, and Policy Development  
Institut Teknologi Bandung

# Aims and Objective

International Joint Studio provides essential knowledge and skill utilised by planners and designers to create, research, analyse, and preparing spatial plans and design projects. The studio is the place for students to expand their academic and professional skills and to enrich student's perspectives on different contexts of planning and design. Planning systems introduced and explored are those exercised in cities of developing countries including formal, informal, and hybrid mechanisms that evolving in an urban environment.

International Joint Studio is a regular event conducted by the Urban Regional Planning Program of SAPPD ITB since 2015 and has been recognised globally and receiving several international awards including World Urban Solutions by World Urban Campaign 2016 and Student Award Special Mention in ISOCARP World Congress 2020.

The main theme of International Joint Studio 2021 is Understanding the Self-Organised Cities in the Global South and will focus on planning and design adaptations related to Covid-19 pandemic including identifying the myriad interventions and modifications in housing, basic infrastructure, development management, local economy, transport, public space, and disaster mitigation. The case study is located in Bandung City, Indonesia by examining examples of both formal and informal settlements. The students are expected to comprehend broader perspectives of a city as it is in term of planning and design, demographics, social and economic attributes, environmental contexts, urban form and structure, as well as governance dynamics developed by different stakeholders in coping with daily needs during Covid-19 pandemic.

Teaching structure of the studio including lectures, studio work, and student presentations. Most of studio process will be conducted online due to restrictions of Covid-19 pandemic. Lecture sessions are including those by academics (ITB and partners), Bandung City Government and related stakeholders.
