

## **SCHOLARSHIP For MASTER PROGRAM Toyohashi University of Technology, Japan**

Following up with the JICA Innovation Asia Initiative, TUT has been awarded with scholarship allocations for Master program. **This intake will be on Oct 2017** which means current final year undergraduates who are expected to graduate this year and could enroll at TUT by Oct 2017 as Master student are considered. Interested candidate who have completed their undergraduate (currently working) are also applicable but their application must go through the host institution.

Therefore, Brian Yulianto will nominate ONE excellent student from Engineering Physics Department, ITB and provide his/her CV alongside with research proposal that matches the research done at Matsuda-Muto-Kawamura laboratory (<http://ion.ee.tut.ac.jp/index.html>).

Nominated students will be screened again within the department and university of TUT prior to final announcement. Any students who will graduate in July as well as October 2017 (or already graduated before) can join this program. Please submit the requirements including CV, 1 paragraph consist of motivation to study at Japan to Brian Yulianto PhD (via email) by Friday, 17<sup>th</sup> Feb 2017 ast 11.00 am. All applicant students should come to interview on Saturday morning starting at 9 am.

Best regards,

Brian Yulianto  
Engineering Physics Department
